KISHORE RAVICHANDAR

Java Full Stack Developer | Spring Boot & Microservices | Azure Data Fundamentals Certified
Chennai | mailingkishore72@gmail.com | +91 8122468276 | GitHub | LinkedIn

SUMMARY

Java Full Stack Developer specializing in Spring Boot backend development. Builds secure RESTful APIs and microservices with Spring Data JPA/Hibernate, Spring Security (JWT) and Spring Cloud on PostgreSQL and MySQL, with React.js frontends. Experienced in testing with JUnit, Mockito and Selenium, Docker deployment, and performance tuning of real-time, high-concurrency systems. **Microsoft Azure DP-900 certified**, with a strong grounding in cloud databases, cost-efficient cloud data service selection, data analytics (Python) and ETL processes.

SKILLS

Languages: Java, Python, SQL, JavaScript
Java & Spring: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Spring Security, JWT, Spring Cloud, Microservices, REST APIs
Testing: Selenium, JUnit, Mockito, Postman
Databases: PostgreSQL, MySQL, PL/SQL
Cloud & Data: Microsoft Azure (Azure SQL Database, Cosmos DB, Azure Storage, Data Factory, Synapse Analytics), relational and non-relational data, cloud database cost optimization, data analytics with Python, ETL/ELT concepts, Power BI
Frontend: React.js, Next.js, Tailwind CSS
Messaging & Real-Time: Redis, RabbitMQ, WebSockets, Socket.IO
DevOps & Tools: Docker, Linux, Git, Render, Vercel, Ubuntu/Windows VPS

EXPERIENCE

Developer Intern – Saveetha Institute of Medical and Technical Sciences, Chennai *Mar 2026 – Jul 2026*

- Built a student management application (Food App) with **Spring Boot** RESTful microservices, **Spring Cloud** and a **React.js** frontend on MySQL/PostgreSQL, delivering **3+ modules** including admin and student.
- Implemented data access with **Spring Data JPA** and **Hibernate** for core entities, replacing handwritten queries and simplifying maintenance.
- Secured admin and student API endpoints with **Spring Security** and **JWT** role-based access, restricting data to authorized users.
- Developed JUnit and Mockito tests reaching **70% coverage** on the service layer to catch regressions before release.
- Optimized SQL/PL/SQL queries and cross-server integrations, cutting query time from **~2s to ~10ms** on the tuned queries.
- Deployed and troubleshot **1 backend project** using **Docker**, Linux, Redis and RabbitMQ, keeping production services stable.

Freelance Full Stack Developer & Consultant – SigmaGraphics (Remote) *Jan 2026 – Present*

- Built and maintain a production **Next.js/React** web app on PostgreSQL and REST APIs, serving **80+ customers per month**.
- Integrated authentication, multi-database support, PayPal payments, email and migrations, enabling online payments end to end.
- Advised on architecture and deployment across Render, Ubuntu/Windows VPS and Docker, resolving production issues for the client.

PROJECTS

Qonnect – Real-Time Quiz & Conference Platform *React, PHP, Node.js, Socket.IO, PostgreSQL, Selenium*

- Built a multi-device quiz platform (Admin, Participant, Big-Screen) with live scoring and leaderboards for **1000+ concurrent participants**.
- Designed a distributed backend (PHP REST APIs, Node.js/Socket.IO, PostgreSQL) so sessions stay in sync across reconnects.
- Automated functionality, UI, unit and load testing with **Selenium**, simulating **3000+ concurrent users** to catch regressions and session-sync issues before live events.
- Resolved N+1 queries and connection bottlenecks found in load tests, improving response time by **~50%**; deployed on Vercel and Render.

SigmaGraphics Website – sigmagraphics.us *Next.js, React, PostgreSQL, REST APIs*

- Delivered a production site for embroidery digitizing and design with authentication, PayPal webhooks, email and PDF invoices, automating the order-to-invoice flow.

EDUCATION

Saveetha School of Engineering – B.Tech, Artificial Intelligence & Data Science (CGPA: 8.10) *2022 – 2026*

CERTIFICATIONS

Microsoft Certified: Azure Data Fundamentals (DP-900) | Data Analytics with Python – NPTEL, IIT Roorkee (Jan–Apr 2026) | Java Full Stack Development – Besant Technologies | LangChain Foundations – Python
